WORK EXPERIENCE

Data Analyst & Associate Consultant   April 2022 – Present
CompliancePoint | Atlanta, Georgia

- Optimize clients' marketing outreach strategies via analysis of marketing response rates and sentiments.
- Ensure clients' marketing strategies comply with federal and state regulations via analysis of campaign attempt frequencies, time windows, and suppressions.
- Develop and maintain Power BI dashboards to report on trends in litigations and contact-rate metrics.
- Independently manage and prioritize time across concurrent projects and client accounts.
- Collaborate across teams of consultants to provide data insights needed for clients, including understanding legal regulations, translating client questions into data results, translating data results into actionable takeaways, and presenting findings to clients.

Assurance Intern & Business Tax Associate   June 2021 – August 2021, January 2022 – April 2022
RSM US LLP | Atlanta, Georgia

- Responsible for the preparation of Federal and State C Corp tax returns.
- Perform pre-tax review procedures and analytic tests on financial statements to ensure accuracy.

EDUCATION

Florida State University   August 2017 - April 2021
  Degrees
  Bachelor of Science in **Management Information Systems**
  Bachelor of Science in **Accounting**
  Honors: Cum Laude, Dean's List (2018 – 2020)
  GPA: 3.61/4.0

PROJECTS

City in a Forest: Trees Atlanta
ryanch.me | ⊞ tableau/ryanchmelir

- Extracted data on Tree Atlanta's planting locations through ArcGIS' querying API, utilized Pandas and PyProj libraries to transform data, and loaded to a PostgreSQL database within a Docker container.
- Queried the data set to analyze trends in planting locations, tree genera, and survival rates amongst commonly planted genera, and published a visualization of results using Tableau.

Fleet Revenue & Expense Tracker
ryanch.me | ⊞ tableau/ryanchmelir

- Analysis and visualization of key fleet management finance metrics, including net income per kilometer, fuel cost per kilometer, cost type breakdowns, and revenue, cost, profit metrics over time by fleet category.
- Created PostgreSQL DB within Docker container, established tables and FK relationships and constraints, imported data, and queried to aggregate necessary data for visualization for Tableau optimization.

LANGUAGES, FRAMEWORKS, & TOOLS

  Proficient: SQL, PostgreSQL, SSMS, Tableau, Power BI, Excel (M) | **Familiar:** Python | **Basic:** Linux, C++
